

## ANIMAL SUPPORT FOR HAARDTER SCHLOSSBERG

Johann & Seppel help us with landscape management

Together with neighbor and castle owner Frank Sobirey, we have been taking care of the terraces behind our winery for decades. The former steep-slope site is an eyecatcher and landscape-defining for the city of Neustadt an der Weinstrasse. By regular mowing of the growth we guarantee the minimum care of the fallow land and thus make a contribution to the preservation of the local cultural landscape. Goat Johann and his smaller colleague Seppel will support us in the future. We look forward to the help.
